

Dear Fellow Guitarist,

Thank you for downloading this **FREE** pdf file from our website - EasyLeadGuitar.com.

Our goal is simple... to help guitarists learn Lead Guitar through the use of our original "EasyLead Guitar Map™" and accompanying "Jam Tracks".

To use the Tab or Notation below please download the "Late Nights" video clip.

What People Are Saying...

"I found the guitar map very helpful and am progressing faster than I thought possible. I found the jam tracks in your package very helpful in learning the C major and E minor scales and developing a variety of melodies that seem to pop into my head. After about a week of using the guitar with the scale map, I can do quite well on my other guitar without the map. It just gets the scale into your head."

- L. Cleven, Winnipeg

"I just started thinking about coming up with melodies to the jam tracks. It's impossible to hit out of key notes! It just made learning scales fun, instantly. Whatever notes I played, they sounded perfect against the jam tracks."

- Gord Gruger, Burnaby BC

"As soon as you take the "fretboard remember game" out of playing guitar, your natural creativity is allowed to develop. I could have used this when I first started playing."

- Ryan Leeson, Vancouver BC
